Wedding Portfolios

Piers Photography

Jonathan Hilder has been photographing people, places and everything else in between for over twenty years. Deeply passionate about his work, Jonathan loves what he does and feels privileged to bear witness to and capture these magical moments ready for you to cherish them for a lifetime.

His photography combines technical proficiency with his patient and fun loving manner enabling all of his subjects to engage with the camera, building their confidence whilst encouraging everyone to be themselves. Being yourself is truly when the best photographs are taken and this is how we want you to remember your wedding day.

Your wedding day will be unique and means that the days photography is tailor made to meet your requirements. Our mixture of reportage and creatively posed shots is designed to capture every aspect of your special day as it unfolds. Our unobtrusive, professional approach inspires images that reflect both the spirit and the atmosphere of the occasion, real moments that will stay with you for a lifetime.

These moments only happen once; Piers Photography is the perfect way to help you capture them making them last forever.

So how do we work?

Initial Consultation

This is your chance to meet us, and ask any questions you may have about the service that Piers Photography can offer you. This session is designed for you to explain how you envisage your special day, details such as the type of photography you like and the kind of coverage that would best suit you. In order to help you in your decision we will have examples of our work and the kind of products and services we have to offer.

If you decide that Piers Photography is the best way to capture your wedding day, it will be necessary to complete a booking form and contract and return this to us with your cheque for £125 to secure our exclusive services for your wedding day and pre wedding shoot.

Once confirmed you will receive a copy of the agreement. We will also provide you with a suggested list of photographs and ask you to amend this to fit your wedding helping us tailor make your photography package to include all of your desired photographs, this will also provide you with a rough time line of your wedding.

The pre – Wedding shoot

The pre-wedding shoot is a fantastic opportunity to get used to being in front of the camera and to take away any nerves about the photography on your big day!

The benefits of this shoot are as follows...

- ❖ A great opportunity to have some lovely images of the two of you together in a more relaxed and casual environment than on your wedding day.
- ❖ It enables you to become more comfortable in front of the camera meaning that on your wedding day you're at ease and comfortable with being photographed. Being yourself is truly when the best photographs are taken, and this is what we want for your wedding.
- ❖ This pre wedding shoot is the perfect way to meet the photographer and help them understand what you like, your style, personality and reiterate how you want to portray your wedding day.
- ❖ You are able to try out some 'poses' for the big day!

This will take place 3 months or so before the wedding, these photos will be placed on our secure website for you to browse and choose the ones that your chosen package provides you with.

One month before the wedding you will need to pay for the balance of the wedding.

The Big Day!

Having planned with you exactly what you desire on your wedding day, Piers photography will attend and capture the day unfolding. We will provide wedding cards for the guests to advise them where to find the photos. We will do our utmost to make your wedding day exactly how you envisaged it!

The Following Weeks

We will then process and colour correct the photos and place them on our password protected website. This process will take at least 7 days up to 10 depending on the number of photos taken.

Your proof book will be ordered and this normally takes about 14 days for delivery.

Once you return from Honeymoon we will arrange a meeting to go through the pictures and agree what you would like to put in the album. Once this is agreed it will take about 3 weeks to produce this.

Your pictures will be placed on the web for 3 or 6 months depending on the package you choose.

Your guests will be able to order direct from the website so that pictures can be viewed and bought all over the world!
